**Gov. Beshear announces Transportation Enhancement  
funding for Prestonsburg**

*Project will 'enhance quality of life' for community*

FRANKFORT, Ky. — Gov. Steve Beshear today announced that the city of Prestonsburg has been selected to receive \$11,500 in Transportation Enhancement funding to invest in a sidewalk project.

“The Prestonsburg sidewalk project will improve access to businesses and services for residents and visitors alike,” said Gov. Beshear. “Our administration is proud to support the efforts of a progressive community to provide a safe, healthy and attractive environment and to enhance the quality of life for its citizens.”

The funding will allow for the design and construction of a sidewalk to connect KY 1428 (University Drive) to KY 321 (North Lake Drive) near the entrance of Big Sandy Community and Technical College. The project will link citizens and tourists to many businesses in Prestonsburg.

Transportation Enhancement programs, which are administered by the Kentucky Transportation Cabinet, offer federal funding for creative approaches that integrate environmentally friendly transportation solutions into communities.

“The citizens of Prestonsburg can be proud of their community, and our cabinet is honored to be able to support their efforts in creating a viable travel alternative,” said Transportation Secretary Joe Prather.
